

Upper Cervical Care Success Story

August 25th, 2002

Robert F. Gucciardo, D.C.
162-07 91st Street
Howard Beach, NY 11414

Dear Dr. Gucciardo;

As you know, I have been suffering from excruciating and disabling headaches for over 20 years. I saw every medical specialist available, including general physicians, orthopedists, neurologists; neurosurgeons, chiropractors etc. yet received no hope or help. I have received CAT scans, MRI's, x-rays, electrical stimulation among other tests. I have been on traction devices, muscle relaxants, pain medications, exercises, massage therapy, to mention a few, with no relief. After all these doctors and all their tests and therapies, the best diagnosis mustered was that my headaches must be "stress-related".

Then, a few years ago, I was visiting family in New York when I suffered a particularly severe headache. My son, Gary, who is one of your patients, said "Dad, you've got to see my chiropractor." Without much hope, I reluctantly came to your office. You treated me like no other chiropractor has ever treated me. You immediately diagnosed my problem and gave me an adjustment. After leaving your office I went for a walk on the beach with my son. To my amazement, the pain began to dissipate and within a half an hour, I was completely pain-free. After blessing you many times, I tried to figure out a way to convince you to move to California. Realizing that was unlikely, I subsequently asked you to recommend someone who practices "Specific Chiropractic" in Los Angeles. I also put my partner Mary on the job. The search led to Dr. Matt Constantino your colleague who practices the "Specific Chiropractic" method here in Los Angeles. However I can't come to New York without paying you a visit or getting an adjustment.

Dr. Gucciardo, before coming to your office, I was in such pain that I felt like I really didn't care if I lived or died. I had no quality of life or hope. I feel I cannot thank you enough. I bless you every day and I truly feel that God led me to you. Please share my experience.

Sincerely,

Gary Antonelli
Los Angeles, California
