

Dr.G,

You are truly God-sent. My family and I are so grateful for the chiropractic intervention and the love of God clearly demonstrated in your practice. We also, lovingly, appreciate your friendly staff - they treat us like family. Since coming to **Gucciardo Specific Chiropractic** in Feb 2009, I've noticed the following changes:

1. I have a glow
2. My hair-y growth LOL! (A side-effect of upper cervical care was new good hair growth)
3. Other physical and emotional improvements - I can move my neck freely (as opposed to turning my upper body to avoid the excruciating neck pain)
4. I can briefly explain the subluxation degenerative process and how it can be corrected thru proper chiropractic treatment
5. Most importantly, when I viewed my pre post xrays I was floored! What a night and day difference! It's like I have a new C-spine!

Dr. G, I believe your healthy sense of humor also contributed to my family's overall spinal improvements, as the Word of God declares,

"A cheerful heart is good medicine, but a crushed spirit dries up the bones." Proverbs 17:22 It's contagious!

To God be the glory!

My family and I are determined to practice daily healthy living, and we are utilizing the techniques taught by Gucciardo Specific Chiropractic to help us do so.

Finally, everytime I hear someone complain about back or joint pain, I mention three words: Gucciardo - Specific - Chiropractic.

May you and yours have a happy, healthy, safe Christmas and New Year!

In Christ,

Roslyn
